

NOTICE OF EXCLUSION FROM MEDICARE BENEFITS

Physical Therapy Cap

Medicare has implemented a cap on physical therapy benefits. Medicare will allow an estimated 18 visits at our clinic if you have not had any other physical or speech therapy this year.

The purpose of this notice is to help you make an informed choice about your options. Once you have completed 18 visits here, you have the following options:

1. Physical therapy at our clinic can be extended if your medical diagnosis qualifies for an exemption to the cap and additional physical therapy is requested by your medical doctor as medically necessary. (We will inform you)
2. Request second payor billing if benefits are available from your Medigap insurance carrier.

Please ask us any questions you may have in regards to your Medicare physical therapy benefits.

I have read this notice and understand my options.
